SATURDAY, JULY 11, 1868.

MORE PERSECUTION—MORE ODIUM.

On the 29th of April last this community was pained and humiliated on account of the pitiful figure cut by the representatives of the Government in a case before the Magistrate's Court. The case was one of prosecution against Mr. Jeremiah Rogers, for alleged trespass upon a Naval Reserve, on English Bay. So keenly was the awkward position felt that the Chief Commissioner blushed to very purple, and his counsel in the case was gladly accepted. Another case of a similar nature against Mr. Miller, for alleged trespass on a Military Reserve on Burrard Inlet, was to have followed that of Mr. Rogers; but the Attorney-General wisely declined to enter upon it, feeling, doubtless, that the Government had incurred sufficient odium for one performance. In alluding to that prosecution at the time we avoided as much as possible saying anything calculated to bring the authorities into still further contempt, and we expressed an earnest hope that the Government would incur no more odium in that direction. That hope has been disappointed. The preliminary steps have been taken for a reproduction of the ludicrous and disgusting farce, and both Rogers and Miller are to be once more trotted out before the Bench of Magistrates. Egad! our Government appears to be fond of notoriety; and, unless we are much mistaken, it will have enough of it before these prosecutions, or, rather *persecutions*, are done with! People will very naturally say, "Well, if these men are trespassers on Reserves the Government is but doing its duty in prosecuting them." True. But that little word *if* is just what's the matter. And hereon hangs a long story, which there is the less occasion to relate in view of the near prospect of the whole affair being laid bare in Court. Suffice it to say, for our present purpose, that neither of these men are in reality trespassers. They are both industrious, sober, hard working men, honestly endeavoring to support in respectability interesting families, and establish permanent homes for themselves in the country. *They both occupy, under Government sanction*; and are justly entitled to the protection of the law, instead of being made the subjects of a persecution as unprincipled as it is contemptible. In order to realize the situation it is necessary to explain that although the Government is the *ostensible* prosecutor, Capt. Stamp is the *real* one. Not contenting with the enormous timber reserves he has already succeeded in monopolizing, he is intent upon placing his paw upon every acre of timber land within reach. Having far more than his share already, he appears disposed to play "the dog in the manger" towards others. The most disgraceful feature of the whole affair is that Capt. Stamp is at the bottom of these prosecutions—is, in fact, making a mere tool of the Government for his own selfish purposes. The notices just served upon the parties allude to "disputes between parties contending for the use of the timber," as the ground of prosecution. Now, it is well known that Capt. Stamp is the only disputant. Of his pretentions the Government himself declared that there was not "a shadow of right." The Lands and Works Department was searched in vain for the slightest evidence in support of these pretentions; and yet rightful occupants are to be asked to step aside and abandon the means of supporting their families, and surrender thousands of dollars' worth of improvements, merely to gratify the insatiable maw of a mere pretender, who has not a shadow of right to the timber in question! Are such things to be permitted with impunity? Is this "power behind the throne" to wield an influence more potent than the throne itself? Is this baneful influence to be allowed to blight our interests by sea and land? Is a Chief Commissioner to draw a large salary from the Treasury for acting as the special agent and "tool" of a man whose selfish machinations are so inimical to the best interests of the Colony? Are honest, hard-working colonists to "go to the wall" under such influences and combinations? It rests with the people to answer these questions. If public opinion does not set its heel upon the neck of this grievance it will soon Stamp out our dearest interests. Let public opinion decree that the honest working man shall have evenhanded justice in British Columbia, that he shall neither be trodden down by recreant officials, nor sacrificed to back-stair influences. We are still anxious to believe that the head of the Government is not knowingly a consenting party to these really disgraceful proceedings, that he has been deceived and misled by a venal minister. But if His Excellency be indeed innocent in intent, the time has now arrived when it is necessary for him to break up this gang which, under the ægis of his administration, would crush out honest industry and prey upon the maritime and commercial interests of the Colony.

LIVELY DEBATE IN THE COMMONS.

It will be recollected that on the occasion of the recent adverse vote on the Irish Church question, giving a majority of sixty-five against the Government, Disraeli sought an audience with the Queen, and in announcing the result in the House of Commons, placed Her Majesty in a position, hardly in harmony with the Constitution. The statement made by the Prime Minister, as to the result of that interview, as might be expected, gave rise to very severe comment, the more so from the fact that the statement made by the Duke of Richmond in the House of Lords did not harmonize with it. Gladstone took occasion to administer a most scathing castigation to the Prime Minister for the highly improper and unconstitutional use which had been made of Her Majesty's name in the affair. In the course of a subsequent debate, upon Gladstone's Resolutions to suspend, for a limited period, appointments in the Irish Church, Mr. Bright said "Mr. Disraeli sometimes pompously and sometimes servilely spoke of his interviews with the Queen. The Minister who deceived his Sovereign was as guilty as the conspirator who would dethrone her. He did not charge the right hon. gentleman with deceiving his Sovereign; but if he had not changed the opinion he held twenty-five years ago, and which he said a few weeks ago he still held, then he feared he had not stated all that it was his duty to state in his interview with the Queen. Any man who placed the Sovereign in the front of a great struggle like this they were about to enter into, and said the Queen held the flag against religious equality, was guilty of a high crime and misdemeanour against his Sovereign and his country." Mr. Disraeli replied, in scornful terms, appealing to the House to say "whether his manner of describing his audiences with the Queen had been either "pompous" or "servile" (as charged by Mr. Bright). Happily there were gentlemen on the bench where the hon. member for Birmingham was seated, and to them he would refer. He defied Mr. Bright, notwithstanding his stale invective, to substantiate charges which he had only presumed to insinuate."

S.T-1860-X.

A great French Physician says: "More than half the diseases in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease."

Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and unable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend, ASA CURRIN, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED *over every cork.*

Sold by all Druggists, Grocers and Dealers throughout the world.

P. H. Drake & Co., NEW YORK, SOLE PROPRIETORS. Redington & Co., 416 and 418 Front St. San Francisco,

Agents for California and Nevada.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of H. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast,

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, STIFF & WEAK JOINTS, BRUISES, SPRAINS, SORE THROAT, BURNS, EAR ACHE, FRESH CUTS OR WOUNDS, SWELLINGS,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

PAUPERISM-EMIGRATION.

With her forty-odd colonies, nearly all stretching out their arms for immigration, one would imagine that the policy of Great Britain would be to transfer her redundant population to these new fields. Indeed one might almost suppose such to be one of the primary objects of maintaining at such an enormous expense, her immense outlying possessions—that, as the husbandman thins out his turnip-rows, transferring the spare plants to new ground, the Government might keep constantly thinning out the dense population of the old country in order to prevent undue rankness and consequent deterioration, disease and crime. Thus, not only would a better crop be ensured on the original soil, but valuable auxiliary crops would be produced in the new fields. No such policy would appear, however, to have found a place in the Imperial brain. What is the result? England and Wales, with an area of 58,325 square miles, groan under a population of 17,023,768, or upwards of three hundred to the square mile, or worse still, in the city of London alone there are huddled together upon an area of seventy square miles no fewer than 2,800,000 souls! Compare these figures with the condition of things in British America. Ontario has a population of 15 souls to the square mile, Quebec, 6; New Brunswick, 11; Nova Scotia, 21; giving the average for the Dominion at 10 souls to the square mile. Prince Edward Island has a population of 44 souls to the square mile; Newfounland, 3; British Columbia, one to every five square miles; Rupert's Land, one to every fifty square miles. This gives a general average for British North America of *one soul to the square mile!* Three hundred souls to the square mile in England and Wales; two hundred and fifty-three souls to the square mile in the United Kingdom, and only one solitary soul to the square mile in British America! How fearfully rank must be the growth in the old world, and what enormous waste of valuable soil in the new. Turn we now to the consequences of the overcrowding in the Old Country. Last year pauperism cost England and Wales alone the sum of £10,692,188 sterling in direct relief, to say nothing of the indirect expense inflicted through crime, disease and death. Oh! The untold, the indiscribable misery suggested by these figures! Taking the very lowest view of the subject, would it not be cheaper to transfer the redundant population to the colonies than to regulate and relieve it at home? The ten millions expended last year would have sent five million emigrants to Canada or half a million to British Columbia. We do not mean to advocate anything so ridiculous as the sending out of anything like even the latter number in one year. Nor do we mean to say that any single colony or, indeed, all the colonies put together, would be able or willing to receive all England's paupers in one year, or in any given space of time. As a class of emigrants they would by no means be in great demand. Our remarks aim at prevention rather than cure. A well digested national system for promoting assisted emigration to the colonies, so regulated as to keep the population of the old country from rising above a standard commensurate with the capacity of the country to afford employment and proper maintenance, would gradually but surely *depauperize* it. Suppose the machinery were set in motion and a certain percentage of the poor-rate fund devoted towards working it, the material out of which the ranks of pauperism are recruited would be withdrawn, and pauperism would itself gradually become extinct—a thing of the past. Thus would prevention be found cheaper and better than cure. Just fancy England without a pauper—London *sans* pauperism! Viewed from the higher and more philanthropic standpoint, how important the results. Millions of human creatures, instead of being conceived in poverty, brought forth in the rags and squallor of a filthy garret or a noisome cellar, and dragging out a short but weary and wretched existence in ignorance and crime, would grow up in the pure atmosphere and green fields of a new country, intelligent, moral and prosperous, an element of strength and a source of credit and satisfaction to the nation, instead of, as now, a source of weakness, expense and discredit. The old country freed from overcrowding, pauperism and crime; the new populated and reclaimed, the solitary places made glad and the desert made to blossom as the rose. Government would thus fulfil its highest duty, by promoting in the highest degree the good of the subject. Returning to the homely figure of the husbandman, it does appear marvellous that, with such a bredth of colonial ground lying waste, Britannia should so long have permitted such a fatal overcrop at home, should not long since have adopted the system of thinning out and transferring the redundant plants to colonial soil. With how much happier results might the ten millions a year, now spent in a very imperfect attempt at *regulating* and mitigating pauperism, be employed in assisting the surplus population of Great Britain to establish new and happy homes for themselves in the colonies. Instead of being content with mitigating an evil, how much better and more worthy of our great nation to transform positive evil into positive good.

FROM VICTORIA.—The str. Enterprise arrived from Victoria last evening. The following is a summary of the local news:—H.M. Ship Sparrowhawk sailed on Thursday for the North, with a view to an enquiry into the recent Indian outrages. It is thought not improbable that the Zealous will sail for the Mexican coast on account of the Mazatlan affair. The steamer Active sailed for Portland yesterday. Naval athletic sports were indulged in on Tuesday. The attendance was large and the fun considerable. Mr. Doran, mate of the steamer Douglas, was drowned in the harbor on Tuesday. The body was recovered and interred with Masonic ceremonies. The Rev. C. T. Woods, of St. John's Church, Victoria, has been created Archdeacon of Columbia, to reside at New Westminster; Rev. W. S. Reece, of Cowichan, has been created Archdeacon of Vancouver Island, to reside at Nanaimo; Rev. Mr. Jenns, of Nanaimo, has been appointed to the Rectory of St. Johns.

AYER'S

MEDICINES.

THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL.

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

SATURDAY, JULY 11, 1868.

SAD, YET TRUE!

Oh, sweet and fair! oh, rich and rare!
That day so long ago,
The autumn sunshine everywhere,
The heather all aglow,
The ferns were clad in cloth of gold,
The waves sang on the shore;
Such suns will shine, such waves will sing,
For ever, evermore.

Oh, fit and few! oh, tried and true!
The friends who met that day,
Each one the other's spirit knew;
And so in earnest play
The hours flew past, until at last
The twilight kissed the shore:
We said, "Such days shall come again
For ever, evermore."

One day again, no cloud of pain
A shadow o'er us cast,
And yet we strove in vain, in vain,
To conjure up the past;
Like, but unlike, the sun that shone,
The waves that beat the shore,
The words we said, the songs we sung,
Like—unlike—evermore.

For ghosts unseen crept in between,
And, when our songs flowed free,
Sang discords in an undertone
And marred the harmony.
"The past is ours, not yours," they said,
"The waves that beat the shore,
Though like the same, are not the same,
Oh! never, never more!"

—*Fraser's Magazine.*

IT CANNOT BE.

Our Victoria contemporary of the *Morning News* delivers himself of a two-and-a-half column leader upon the subject of "Governor Seymour's successor." To begin with, our contemporary is in error as to the term for which Colonial Governors are appointed. The term is six years, not "five." If the original appointment of Mr Seymour, as Governor of the Mainland Colony be taken as a basis, then would his term expire towards the close of 1869. If, however, the date of his appointment as Governor of the United Colony be taken, it will run till towards the close of 1874. We think the *News* is equally in error in attributing the partial depopulation of the Colony and the severe commercial crisis through which it has passed to the administration of that gentleman. He had just about as much to do with these as with the occurrence of a cyclone on the Hoogly. We have not yet forgotten, if our contemporary has, the time when the Victoria press praised Governor Seymour and his administrative abilities, and earnestly expressed the hope that he would come back as Governor of the United Colony! The *News*, after holding the present Governor responsible for all the ills to which this Colony has fallen heir, disposes of Mr. Birch in a very summary way, by saying that he would be "greatly preferable to the present incumbent," that his past experience in the Colony would give him a great advantage over a stranger, yet that the fact of Mr. Birch having served under Mr. Seymour, and possibly having "imbibed many of the peculiar ideas of that peculiar gentleman" forms the great objection to him. "We would, however," says our contemporary, "prefer him to a stranger." He next draws the portraiture of the sort of Governor that is needed to lift the Colony from "the slough of despond into which it has fallen," and then asks:—"Is such a man available? Where can he be found? We believe that ninety-nine out of every hundred people in the colony would give an affirmative response to the first inquiry, and to the second they would point to SIR JAMES DOUGLAS." Now, without fatiguing the reader with a discussion of the merits and demerits of the administration of Sir James Douglas, we may be permitted to say, in a word, that such an appointment can never take place! Our reasons for saying so are three in number. Firstly: Sir James has had his turn in the service, and has been shelved with a K. C. B.; and it would be contrary to all the usages of the service to re-appoint him, least of all for this Colony. Secondly; The next Governor of British Columbia will, in all probability, occupy the position of Lieutenant-Governor, under Confederation. In any case he will only draw half the present salary. Such a position Sir James could not, with proper self-respect, accept. Thirdly: Provided both of the foregoing difficulties were removed, the immense personal property and connectional interest possessed by Sir James Douglas in a particular locality in this Colony, must of itself present an insuperable barrier to his resumption of the reins of Government. So far as the past is concerned the friends of Sir James would act wisely in practising a discreet silence, and allowing that gentleman to enjoy in peace his retirement from political life. As a gentleman, we have always respected and admired him. As a Governor, while fully admitting his abilities, we have seldom been able to approve of his policy. Arbitrary in his nature, and unable to rise above local interests, he could not make a popular Governor; and to say that he stood well with the colonists generally is to make an assertion so utterly opposed to fact that we are surprised the editor of the *News* should have fallen into so papable an error. While it is perfectly true in a sense that "the splendid line of roads, connecting the gold mines of the north with the sea-board are a lasting monument of his indefatigable zeal in the development of the mainland and the promotion of the best interests of that colony," it is equally true that these roads were constructed at a fearful cost, fully fifty per cent. more than they should have cost, and that it is the very debt piled up in England for this prodigal expenditure that forms the chief element in the burden under which the Colony is now groaning. Governor Seymour came to us just at the most critical period he could have come. The patronage arising from the expenditure of large sums of borrowed money had been exhausted. The "flush" times consequent upon that expenditure were past; and the debt thus created had to be provided for. The official staff had been multiplied and their salaries raised step by step until in some instances they had been doubled, trebled, and even quadrupled, with "pickings" sometimes almost equal to the stated salaries! What a delightful task to undertake, the administration of affairs at such a crisis!

LORD BROUGHAM.

In 1839 this distinguished man met with an accident by being thrown from his carriage. A report of his death reached London; and the papers of the day published elaborate biographies and eulogies, which Lord Brougham had the satisfaction of reading, enjoying the pleasure rarely experienced, of knowing exactly what his contemporaries thought of him. The English Press has again been called upon to discharge that melancholy duty; this time without any possibility of a similar sequel. The following anecdote is related to illustrate the tact and firmness of the illustrious dead:—On the defeat of the Reform Bill of 1831, the Chancellor was urgent for a dissolution. Lord Grey did not by any means relish the idea, and he was very sure that the King would not like it better. The Chancellor offered to manage the King, and to bring him down to the House forthwith; having previously ordered the Royal carriages, servants, &c. It must have been a wonderful scene. Lord Grey evidently did not much like going through it; but it was inevitable, and the consummate coolness of Brougham extorted the wished-for step from the astounded King. Brougham was to manage the business, and plumply asked the King to dissolve forthwith. "But," said the King, "the great officers of State have not been summoned?" "Pardon me, Sir," was the reply, given with apparent humility, "We have summoned them." But, my lords, the Crown robes, &c., are not prepared." "They are all prepared, Sir, for your Majesty's use." "But, my lords, the thing is impossible—the troops are not ready." [Orders for the household troops always come direct from the Sovereign.] Said the Chancellor, "Pardon me, Sir, we know your great goodness, and your anxious desire for the safety of the kingdom and the happiness of the people. *I* have given orders, and the troops are ready." This was rather too much. The King turned red in the face. "What, my lords," said he, "have you dared *this?* It is treason, treason, my lords." "Sir," replied the Chancellor, "I do know it is treason; I submit humbly to your Majesty's pleasure, but I entreat your Majesty to follow our counsel." Whatever may be doubtful in the tale, it is the fact that the King went forthwith, the House was dissolved in the midst of turmoil and confusion, and the *coup d'etat* was successful.

☞Our readers have observed that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canastota, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably the effect of Ayer's Sarsaparilla, leads us to publish without reserve the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually "raise one from the dead," should be universally known; and we wish it may be universally as successful as it has been in the case of Mrs. Rice.—*Daily Journal*, Syracuse.

RE-OPENED.—The public library and reading-room, closed since April last, was re-opened on Wednesday, upon an entirely new basis. Those desirous of availing themselves of the privileges of this Institution or those who may feel disposed to support it upon more general principles, should lose no time in giving in their names to the Board of Management, consisting of Messrs. Hoolbrook, Bushby, Claudet, Armstrong, and Raylett.

A MOVE IN THE RIGHT DIRECTION.—We are always pleased to be able to chronicle any improvements or changes for the better in this thriving little city of ours. We have just heard of the amalgamation of two well known Houses here viz. Messrs. Clute and Clarkson, who have entered into a Co-partnership, and are now prepared to furnish every description of Goods in the Dry Goods, Clothing, Boots, shoes, Grocery and Stationery lines, at very reasonable prices. We bespeak for them the liberal support of a discriminating public.

BOAT RACE.—An interesting and doubtless, very exciting race is to come off at 3 o'clock to-day, between Mr. Calder's boat "Golden Arrow," and Mr. S. W. Herring's boat "Fairy." The start is to be from the wharf in front of the Mansion House, and the course round a boat moored opposite Herring's Ranch.

TO CORRESPONDENTS.—The contribution of "Scrutator," although by no means destitute of literary merit, is unsuited to our columns. That of "Colonist" is altogether too lengthy, besides being otherwise objectionable.

FROM YALE.—The str. Reliance, Capt. Irving, arrived from Yale yesterday, with a few passengers and a local express. There is no later news of importance from the interior.

WESTERN AUSTRALIA.—Sir Benjamin Pine, who has been lately administering the government of the Leeward Islands, has been appointed Governor of Western Australia.

THE TRIAL OF WHELAN, charged with the assassination of Mr. McGee, has been fixed for the 2d September.

RUN AGROUND.—The ship Vedette, while being towed out of the Inlet on Wednesday, by Capt. Stamp's tug, was run aground. She was got off by taking 50,000 feet of lumber from her deck.

TELEGRAPHIC SUMMARY.

European dispatches are to the 4th inst. On the 1st a grand banquet was given to Cyrus W. Field, in London, in acknowledgement of his eminent services in building the Atlantic Cable. The Duke of Argyle was in the Chair, and 300 distinguished gentlemen were present. In the Corps Legislatif, on the 1st, the debate on the Budget was continued. M. Thiers expressed the fear of an outbreak of war in consequence of the national bankruptcy on account of the military preparations now going on. The reported death of the Queen of Madagascar is confirmed. Ramona has succeeded her as King. Kamavota II. A Worms dispatch dated June 24th says; Extensive preparations are being made for the coming celebration of the Reformation. All protestant denominations will unite in the celebration. Crowds of foreigners, a majority of which are Americans, arrive in the city by every train. The North German Steamship Company is about to build two more steamers for the Bremen and Baltimore line. The Austrian Government has commenced disarmament by issuing leaves of absence to 34,000 soldiers.

The news from the Eastern States is to the 7th inst. The President's amnesty proclamation grants full pardon unconditional and without reservation to all and every person who directly or indirectly participated in the late rebellion, excepting such persons as may be under presentment for indictment in the United States Courts having competent jurisdiction upon charges of treason or other felony. In the House on the 2d, Banks gave notice that he would, on the 7th, move to go into Committee of the Whole on the Alaska Bill. Florida was restored to the Union on the 1st, and the military Government withdrawn. Gen. Gillem is ordered to California, to take the position vacated by Gen. McDowell. Gen. Grant has gone West. The Democratic National Convention was in Session at New York. The following is their Platform:—

1st. The restoration of all the States to their rights in the Union, and the restoration of Civil Government to the American people.

2d. Amnesty for all political offences, and regulation of the elective franchise in the States by their citizens.

3d. Payment of national obligations, in strict accordance with the terms.

4th. Taxation of Government bonds to the same extent as other property. Reduction of standing army and navy. Abolition of Freedmen's Bureau. [5th and 6th not sent.]

7th. General reform, reservation of public lands for homes for working people, subordination of military to civil rule to the end that the usurpations of Congress and the despotism of the sword may cease.

8th. Equal rights and protection for naturalized and native citizens at home and abroad.

Horace Reymour was chosen permanent Chairman.

The *Herald's* correspondence from Mexico, dated 15th ult., states that Juarez had remained firm in his refusal to change his Cabinet. Romero has been ordered from Washington. The English bond-holders had been informed that their negotiations with Maximilian annulled all negotiations on the part of Mexico. There is no cordiality between the American Legation and Juarez, owing to the protection of the Europeans in the American Consulate.

A PROBABLE IMPORTANT INVENTION.

To the Editor of the British Columbian.

SIR,—As you are greatly interested in the success of all our industries I ask the favor of your giving currency to the following:—I was led, last winter by the perusal of a small work on "water power," to consider whether a certain engine therein mentioned could not be made available for draining the hitherto unworkable mines situated in the Meadows of Williams and Antler creeks; and, as the work in question gave no information as to the capacity of the said engine for *high* lifts of say 100 feet, I submitted my plan to the inspection, and asked the opinion of Messrs. R. Garrett & Sons, Machinists, of Leiston Works, England, a firm of high standing. In their reply, dated April 23d, which I had intended to publish *in extenso*, they say:—"The machine in question will answer admirably for raising water to the required height of 100 feet." The following extract will furnish a measure as to its efficiency:—" * * * with a fall of 200 feet for the turbine, and a lift of 100 feet for the pump, the latter will deliver about the same quantity of water that the turbine will require for driving it, more or less according to circumstances, that is to say 500 gallons of water, per minute acting on a turbine with a fall of 200 feet, will raise 500 gallons per minute from a depth of 100 feet." Messrs. Garrett & Sons gave some particulars as to cost; but, as I could furnish no information as to the amount of water to be raised, or what amount is available for working a high or low pressure turbine, it is useless to publish them. The practical conclusion is this:—If a company or companies be formed, *with ample capital*, no great amount will be needed beyond what is required for the actual sinking of the shaft, and will guarantee to me a fair share in the profits, free of all claims, I will furnish full details of what I have reason to believe will be found, an efficient and not very costly mode of drainage, one that will act continuously, and *follow* the sinking. I do not guarantee it, however, for I am neither a machinist nor a civil engineer.

JOHN PLEACE.

Alexandra Bridge, June 27. 1868.

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish hips, Bad breath, Sallow complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, mid-life-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhœa, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly strengthening in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

PLANTATION BITTERS

S.T-1860-X.

[illegible] to the complexion and brilliancy to the bright, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all sides, the success of Dr. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York, Sole Proprietors.

Redington & Co., San Francisco, Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for sprains, scars, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HEWETT,

Foreman for Ames'n, Wells, Fargo & Harnden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment." Eb. SCELY.

Worcester, Mass., Aug. 1, 1866.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. WESTBROOK, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An off-set has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all druggists and Stores, @ 25 & 50cts. and $1

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This powder is their natural death. It should be in every cupboard.

JOHN C. HOLT, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & Co., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of S. T. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

ADDRESS

TO THE

NERVOUS AND DEBILITATED

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, mopping, tired of company, or of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real causes, the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S FLUID EXTRACT BUCHU IS THE

GREAT DIURETIC,

AND IS

A CERTAIN CURE FOR

Diseases of the Bladder,
Kidneys,
Gravel,
Dropsy,
Organic Weakness,
Female Complaints,
General Debility,

AND ALL DISEASES OF THE

URINARY ORGANS,

whether existing in male or female,

From whatever Cause originating, and no matter of how long standing.

☞If no treatment is submitted to, CONSUMPTION or INSANITY may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S EXTRACT BUCHU,

ESTABLISHED UPWARDS OF 18 YEARS,

PREPARED BY

H. T. HELMBOLD,

DRUGGIST, 594, Broadway, New York, and 104 South Tenth st., Philadelphia, Pa.

Price $1 25 per bottle, or Six for $6 50.

DELIVERED TO ANY ADDRESS.

SOLD BY ALL DRUGGISTS, EVERYWHERE.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous ungment have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system; that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with both the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes	Fistulas,	Scurvy,
and Sand-flies,	Gout,	Sore-heads,
Coco-bay,	Glandular Swel-	Tumors,
Chingo-foot,	lings,	Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,	

Sold at the establishment of Professor HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. de6ly

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Eldes, a well-known merchant of Orford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawtle, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the perseverance in your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wolcottville, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you directed. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The procession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Lieu, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent universal at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from making a sacrifice to the effects of dyspepsia, dysentery, marasmus, constipation, liver complaints, &c., as has been attested by myriads of witnesses. Excessive weakness, premature decay, are restored and reanimated with vigor, and the warnings of decreasing organic energy and threatening disease, by a few doses of these Pills, taken according to the printed directions.

Female Complaints.

All disorders of the sex, and diseases in every crisis of life to the delicate, whether of woman, youthful or aged, married or single, may be radically and quickly cured without risk of trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the regions of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestive organs, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and freshness in a completely renovated constitution, but it is generally necessary that the Ointment should be most carefully rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should know the effects of this valuable remedy, a few doses of which will make the sufferer feel refreshed and vigorous, removing impurities, giving a healthy action to the liver, and bilious secretions, and consequently to the whole system. To be all weak to continue, serious constitutional disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills (taken in unison, will correctly complaints arising from these organs.

Debility, Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may lead to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days, and the result will be marvellous.

Complaints Incident to Children.

All complaints of children may soon be cured if care is taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels; a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful in not allowing their children to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregular-	Scrofula, or King's
Asthma,	ities,	Evil,
Bilious Com-	Fevers of all	Sore Throats,
plaints,	kinds,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
